

INTERNATIONAL ACCREDITATION IS THE BIG DIFFERENTIATOR!

The Standards for Educational Advancement & Accreditation (SEAA) Trust, New Delhi is completing its "100 by 2015" campaign having achieved the century mark in the schools undergoing the accreditation process. We are replacing this campaign with a new one "100 Accreditations by 2020". The purpose of accreditation is to grow the school with peer participation. SEAA Trust, recognising this unique aspect of accreditation has created SEAA Forum, a meeting place of minds among the schools undergoing the accreditation process or those who are already accredited to help mutually exchange information and knowledge.

As a member driven institution, SEAA Trust, a non-profit agency invites accredited business schools and those considering accreditation to join SEAA Forum.

SEAA Forum was constituted as a part of our effort to propagate International Accreditation processes and bring together the peer schools and faculty to exchange notes and information on their respective accreditation experience and also take part on international conducted tours of Accredited Schools.

Join SEAA Forum that brings together Global peers!
